

# The Wainwright Star

VOLUME VI

WAINWRIGHT, ALBERTA, WEDNESDAY, JUNE 24., 1914

NUMBER 38

**FOLK DANCES WILL BE A FEATURE ON WEDNESDAY NEXT**

New Feature introduced at the Eleventh Hour for Celebration Day.

FIRST OF KIND IN THE PROVINCE

Here Real Competition to be One of the Big Attractions of the Day.

Wainwright's sixth annual Dominion Day celebration promises to be up to the usual high standard. The businessmen of the town are leaving no stone unturned and providing the weatherman smiles on us next Wednesday a successful day is assured.

The newly organized band are working hard and will put on a good musical program. A special feature has been added at the eleventh hour by H. C. King informing "Folk Dances" by the Girl Guides. Twenty-four girls will give an exhibition of Folk Dances on Main St. and Second Ave. during the day. These dances are very graceful, attractive and quaint, and originated in England and European countries. The appearance of Folk Dances along the highways of Wainwright will have the honor of being the first in the province of Alberta.

The horse reel competition which takes place in the morning will also be an interesting event and the three teams entered will vie with each other for the big prize money offered. Fire Chief A. E. Mills will see that the men put up a good competition.

The various sports committees are winding up entries for the horse races, football and baseball matches and the grounds and the fireworks committees are making preparation for a big crowd.

In the evening, a special feature picture show will be on at the Elite theatre and the show will commence at 8 p.m. After the last show, and at about 9:45 or 10 p.m. the fireworks display will start. Following the fireworks, an informal dance will be held in the Elite theatre, when local musicians will supply music for those who attend.

People from the surrounding district are assured of an excellent day's sport and visitors from Irma, Edgerton, Chauvin and Vermilion, who are expected to be here on that day can rest assured that their presence in Wainwright will be appreciated by those in charge of arrangements for the celebration.

Miss Bonnie Parsons and Mr. H. C. King, will appear in a musical operatic sketch on Friday night. Mrs. Mills who has always taken a great interest in helping the children with their concerts will again preside at the piano.

"Judith of Bethulia" in four parts will be seen at the Elite theatre tonight. This will undoubtedly prove one of the best features ever seen in the local playhouse. It has been in Edmonton where several local people have seen the four roles.

Samples of wheat are being brought to the STAR office that are planning to look upon. The latest brought in by A. J. Martin from City View farm stands 29 inches high. It is a sample of Preston.

The local baseball team will visit Edgerton on Thursday and Irma on Saturday. It is expected that a large number of supporters will accompany the team to both places. The match between Irma and Wainwright will show the strength of the local team.

Harry Somers, who has been driving a passenger engine on the west end, has returned here and will go back to his old run between Biggar and Watrous.

## BODY OF W. B. CRAWFORD FOUND AT BOTTOM OF DISUSED WELL SOUTH OF TOWN; TERRIBLE WOUNDS ON HEAD TELL ONLY PARTIAL STORY OF BRUTAL MURDER, CAREFULLY PLANNED

**Man for whom Country was Scoured Found on Friday Last Under Forty Feet of Debris at Bottom of Well on Land Owned by T. G. Cook --- Coroner's Jury Brought in Verdict that Unfortunate Man Met Death from a Blow or Blows from a Dull Instrument in the Hands of Some Unknown Person or Persons --- No Doubt in Minds of Anyone that Murder was Premeditated and Cold Blooded.**

Body Removed from Its Mysterious Hiding Place by Constable Wilson, Thos. Crampton and Others As a Result of the Suspicious Appearance of Well which Had been Filled in Such a Manner as to Make It Appear that No Well Had Ever Existed --- Three Pocketbooks that Victim was Known to Have Carried were Not on His Person when Found --- Farm on which Body was Found Had not been Occupied for Six Months --- Murdered Man Last Seen Alive by Clifford Mooney on Night of Thursday, May 14th, Walking Toward His Home --- Many Wild Rumors Circulated as to Motives for Terrible Crime that Has Paralyzed with Terrific Force the Keener Senses of Those who Knew Mr. Crawford --- Detectives and Police Following Clues that May Lead to Arrest of the Perpetrator of this Foul and Brutal Murder.

### EVIDENCE HEARD AT CORONER'S INQUEST

THE EVIDENCE AT THE CORONER'S INQUEST went to show that the murdered man had no enemies and that his domestic life was not marred by any family friction. Night Policeman Crampton swore he saw strange automobile in town on night of victim's mysterious disappearance. Doctors testify that of the six blows dealt murdered man either of two would have caused death.

NEVER in Wainwright's history were the townspeople and those residing in the district so worked up over anything than the discovery of the remains of W. B. Crawford in an old well, six miles south of town. Never have the people had as much cause to forget business and their needs to discuss so terrible a thing. That the late Mr. Crawford was foully and brutally murdered is self apparent, and it needed no jury's verdict to prove it. The gruesome remains, with six wounds on the head were taken from a well of the farm, owned by T. G. Cook, six miles south of Wainwright.

The murdered man disappeared from Wainwright on the evening of May 14th, and in spite of rumours to the effect that he had left town of his own accord, many, including Constable Wilson, feared that he had come to some untimely end. The country for miles around was searched, but nothing was revealed. The search was finally abandoned, but the mysterious disappearance of such a prominent man under the circumstances that baffled solution was not forgotten.

#### SUSPICIONS AROUSED

In his evidence at the inquest on Saturday, Frank Ebbert, who passes the farm on which the body was found, stated that on Saturday, May 16th, two days after the disappearance of the deceased, he passed the well which appeared to be in its usual condition. When passing the following week he noticed that the well had been filled in. He thought it strange and reported the matter to Angus McQuaker, who in turn told Mr. Henry, son in law of the deceased. Suspicion was aroused and it was not until Friday last that the well was dug out.

#### THE WELL FILLED IN

According to evidence by those who viewed the well before the body was removed, the top of the hole was filled with manure, under which were boards, a sack of cement, an iron bar and flax straw. After this had been removed by Thomas Crampton, Constable Wilson and others, grappling irons were put down in the bottom of the well, in which was about sixteen feet of water. The first indication that their suspicions

THE LATE W. B. CRAWFORD

### MURDERED!

The remains were viewed and brought into town on Friday night. The inquest started the next day and ten witnesses were called to give evidence.

#### LAST SEEN ALIVE

The deceased was last seen alive on Thursday evening, May 14th at 11:15 p.m. by Cliff Mooney. In his evidence he stated that when coming home he passed Mr. Crawford, who was walking in the direction of his home, between 5th and 6th Avenues, three blocks from his residence on 9th Ave. They spoke and the deceased appeared to be in his usual good spirits. He did not see or meet anyone else on the street that night. Other witnesses deposed to have seen him, both in the street and in his office from 8 to 10:30 p.m. and to have been told by Mr. Crawford that he had an appointment with a man named Barker about purchasing some lumber. A copy of a telegram received by Mr. Crawford at 9:30 that morning was produced. The telegram stated that the sender had a quantity of lumber for sale at cheap prices and that he was going through Wainwright that night and requested an appointment in Mr. Crawford's office at 10:30 p.m. The wire was dispatched from Tofield and was received here at 9:05 a.m. Thursday morning.

Thomas Crampton, the night Watchman, in his evidence stated that at about 11 p.m. that night a strange motor car in which were two men came in from the north and stopped for a few moments outside the Wainwright Hotel and then moved on. He did not know in which direction the car afterwards went.

T. G. Cook, owner of the farm on which the body was found, was called and stated that he owned the farm in question and had leased same to A. G. Wheaton. As far as he could remember he had not visited the farm for more than a year as certain differences had arisen between Mr. Wheaton and himself over some grain he had grown on the farm before the lease was made. For this reason, he did not wish to trespass on the property while in the possession of Mr. Wheaton. He explained he was ill at the time of Mr. Crawford's disappearance and

was extremely temperate and was never known to take a drink since being in Wainwright.

#### AN INQUEST HELD

After the body had been removed from the well, it was placed in a shed on the property and Coroner Little immediately summoned a jury, composed of John Wood, R. Aykroyd, Fred Perkins, Leo Wells, Harry Mabey and John Reid.

## MAN ALLEGED TO HAVE COMMITTED SUICIDE IS ALIVE AND WELL IN B.C.

Axel Johnson whose Suicide was Reported Heard from by Friends.

George Kincaid who is in Saskatoon at present, has exchanged wires with Axel Johnson who was reported to have committed suicide in Victoria, B.C. According to Mr. Kincaid there is no truth in the report, the wire having been received from Mr. Johnson on Wednesday last. Mr. Kincaid has a farm next that owned by Mr. Johnson at Clarke Manor and was interested in the report, which fortunately was not true.

## OIL DRILLING RIG PASSED THROUGH HERE YESTERDAY

Operations Near G. T. P. Bridge Crossing Battle River to Start at Once.

Drilling operations in the Gratton Coulee will start at once. Machinery for the Gratton Oil Co. passed through here yesterday from Melville and active operations are expected to start as soon as the rig is unloaded at Babayan. According to President Morris of the Gratton Oil Co., the well will be drilled on 33-44-8, which has been selected as the best location by geologists and engineers in the employ of that company. The rig will be set up on the north-east quarter it is thought. President Morris in an interview with the STAR stated that his company expects to have the well down by fall, and with good luck, less than sixty days should suffice to prove that part of the field. The drilling outfit can drill to a depth of 3,000 feet, although it is expected that black oil will be encountered at little more than 1,000 feet.

Mr. Morris gave out other information, not intended for publication, that convinced the STAR that the Gratton Oil Co. means business.

At the Methodist parsonage at 9 a.m. Monday, Miss Florence Reeves, of London, Eng., was united in marriage to Leonard Bernard Folke, of Uncoos, Alta. They will reside at Uncoos. The marriage was solemnized by Rev. C. R. Corcoran.

A number of new turns are announced for the Empire concert to be held in the Elite theatre on Friday night. Miss Mildred Rulison will appear for the first time in the local theatre in the role of a juvenile song.

On the first of July, a number of Girl Guides will dance the "Folk Dances" through the streets and on the grounds. Some of the members of the drum and fife band will be with the town-band on that day.

J. C. Shirley and N. E. Cook spent the week-end in Edmonton, returning here on No. 4 Saturday night. They were in the city when the excitement following reports of a new oil strike at Calgary was at fever heat.

## GAS ENGINEER IS RATHER DUBIOUS THAT OIL IS HERE

Edmonton Engineer Appears to Have Different View Before Leaving Town.

James Brodie, Gas Engineer for Edmonton, was in town over Sunday and while here gave out an interesting interview in regard to gas and oil prospects in the vicinity of Wainwright. Engineer Brodie is in charge of the Viking gas well which has been sunk to a depth of 350 feet.

Engineer Brodie is an optimistic as ever over the prospects of finding gas west of here. He has been of this opinion ever since he investigated the field and believes there is hardly a possibility that it will not be found. In his opinion, the gas that will be encountered will prove a dry gas, much after the nature of that found at Medicine Hat.

Mr. Brodie is interested in the Wataskiwin oil field and it is understood that he holds valuable leases in that locality. He is equally as much interested in the Wainwright field, as he has been in close touch with it for sometime.

While here, he gave out interesting information as to the formation of oil. Before leaving here, he was more favourably disposed to believe that there was oil as well as gas in the Wainwright field than when he first arrived in town.

### ELITE THEATRE

FRIDAY, JUNE 26th, 1914

.. Cadet Entertainment ..

New Attractions. Concert at

8 p.m. Popular Prices.

Adults 50 c. Children 25 c.

The cadets leave for camp on Sunday at 3:45 p.m. in charge of Cadet Instructor Arthur King. They will march to the station headed by the drum and fife band, and accompanied by the Girl Guides. Twenty-five of the cadets will take camp training and are expected to return here the following Sunday.

The members of the Health U.F.A. held a picnic at Clear Lake on Saturday last. In the baseball match between Edgerton and Health, the former won by a wide margin. G. L. Hudson, M.P.P., umpired to the satisfaction of both teams.

## J. H. DAWSON HAS WHEAT THAT NOW IS IN SHOT BLADE

Grain Grower who Raised 54 Bus. Wheat to Give Report on Crop Conditions.

SHOULD SUMMER FALLOW LAND

Thinks Prospects for Good Crop are Equally as Bright as Last Year.

"If weather conditions continue, I would not be surprised to see this year's crop equally as good as last year," said Mr. J. H. Dawson when he visited the STAR office yesterday. Mr. Dawson brought with him a sample of Marquis wheat, which measured 27 inches in height. The wheat is now in the shot blade and the sample is strong and sturdy.

Last year Mr. Dawson seeded two bushels of Marquis wheat on an acre and an eighth of land. The yield from this plot was 514 bushels or 54 bushels to the acre. The yield from the acre and an eighth was seeded on April 21st and 22nd, this year, covering thirty acres. Last year's was seeded on April 21st, and out 127 days later, which is on a par with records established by the experimental farms.

Mr. Dawson has 200 acres seeded this year, 150 being in oats, 30 in wheat and 20 in barley. He was fortunate in getting his grain in the ground early and generally speaking there is no grain in the district that shows better progress than that on the north half of 16-45-8, the land owned by Mr. Dawson.

"I am strongly of the opinion that a percentage of the land, say one third, should be summer fallowed every year. It has many advantages. It keeps down the necessity of weed inspectors and the necessity of weeding and cutting land twice to get one crop. Last year I cleaned up all the manure around the farm, put it on the land, and this year I have accumulated about 100 loads which will go on summer fallow," said Mr. Dawson.

Mr. Dawson expects the best results to follow the operation of his farm along such lines and especially from the plan he is adopting from summer fallowing.

## CHAS. TAYLOR THINKS LOCAL OIL FIELD WILL TURN OUT A WINNER

"I do not advise anyone to invest a cent in oil stock in the Gratton Oil Co. or any other company in Alberta, but I do say that after a careful investigation of the field west of Wainwright it appears to me that it is the horse in the race that I would bet on."

Mr. Chas. Taylor, who sought a franchise from the town of Wainwright sometime ago, expressed the above to the STAR on Saturday last. Mr. Taylor has investigated this part of the province for oil and gas for the past fifteen years, in company with geologists and other experts, and it is on the accumulated evidence of a good many years that he considers the Wainwright field one of the most likely in the "free-for-all" referred to.

Mr. Taylor is in town today and this morning called at the STAR office. Asked as to where the Gratton Oil Co. would set up its rig, he stated that he was not quite sure, although he thought it would likely start operations on either 33-44-8, or on 4-45-8. The company, it is understood, has recently acquired the south west quarter of the latter section, and in order to facilitate the cost of hauling in fuel and other requirements at the well, this site may be selected.

WAINWRIGHT ALTA., WEDNESDAY, JUNE 24th, 1914

## A CRIME THE BRUTALITY OF WHICH IS APPALLING

ALL LOCAL PEOPLE AND THOSE who know the late W. B. Crawford must stand amazed at the horrible murder which is a subject of so much discussion and comment in Wainwright and elsewhere at present. That a crime in which the grossest kind of brutality is the outstanding feature could be committed in a town of Wainwright's size without any clue being found is astounding. Five weeks have passed since the unfortunate man disappeared, and few dreamed that the murdered man had come to such an untimely end. It was suggested that he had met with foul play, but not even those who suspected such could believe it, until they were forced to on Friday last when the terrible truth spread like wildfire throughout the town. Stories of all kinds, connecting the names of different people with the crime, immediately started, and detectives, mounted police and other authorities are making an effort to locate the guilty party.

That a crime has been committed cannot be disputed. The brutality of the crime is appalling. Someone is guilty and it is to be hoped that the matter will be thoroughly and completely cleared up to the satisfaction of people who naturally in a case of this kind demand justice.

## THE ELIMINATION OF THE SPECULATOR

THERE IS MORE WISDOM THAN FOLLY in the following excerpt from "Industrial Canada," in which the land speculator and the manufacturer are the subjects of discussion.

The land speculator injures the manufacturer principally in four ways: he increases the value of urban lots so greatly that the employees of factories cannot properly be housed; he leaves city land low-taxed and vacant, and grows rich from unearned increment, while the manufacturer pays the taxes on both land and improvement; he increases the price of farm lands in the neighborhood of rural cities and thus hinders the development of rural markets for manufactured goods; and, finally, when he has made his fortune, he either buys foreign goods or he spends the greater part of his time and money abroad. The elimination of the speculator will make the path of the western manufacturer easier to travel."

## WAINWRIGHT FORTUNATE IN REGARD TO FIRES

ETERNAL VIGILANCE is the price of safety from fire in western towns with inadequate fire appliances. Carbon knows this only too well this morning. This from the Calgary Herald voices one truth that western towns sometimes fail to comprehend until such time as they are shown by fire that their equipment must be complete and their fire brigade efficient. The town of Carbon suffered a fire loss of some \$50,000, last week on which only \$12,000 insurance was carried.

Of the many western towns that have sprung up during the past few years, Wainwright possesses the good fortune of having one of the best fire fighting equipments and most efficient brigade that it is possible to have. Time and again fires have been extinguished and property saved from destruction. The town of Carbon would probably have been saved from a greater part of the destruction it suffered had it possessed sufficient equipment.

Experiences of this kind will prove that western towns with scarcity of water and volunteer fire brigades must invest money in equipment. In the majority of cases, however, they do not wake up to this fact until a holocaust has forced the bald truth upon them.

(LETHBRIDGE HERALD)

IT IS SAID THAT THE DAY of the dreadnought is passing; what with the aeroplane above and the torpedo below they would worry the life out of the big ship. Sort of a case of the "Lion and the Mouse."

"THIS IS THE SEED TIME OF CANADIAN LITERATURE. The harvest will surely follow. When a nation has great material interests to develop, its energies are naturally turned in that direction. There is no time for dreaming dreams but that stage will also arrive. Then Canada will have a great literature."—Sir Arthur Conan Doyle.

**JOHN DEERE IMPLEMENTS**

**The New Deere Gang**

**Foot-Lift and Hand-Lift**

The Only Plow That Has Both

Besides you'll find that the very name "John Deere" on any plow means a tested plow to you in service and durability. There is no plow made that has a better or easier Foot-Lift than the New Deere and it also has a separate Hand-Lift. It is the only plow that a boy can lift out of the ground while the horses are standing still. The New Deere Gang is the only plow that can be controlled perfectly while walking. The auxiliary Hand-Lift gives the New Deere five times the lifting leverage found in other makes and you can raise the plow without getting on the seat. Lifts 7 or 8 inches above ground instantly, but easily and is positively the lightest draft plow made. This is due to the special construction of the bottom. Our longest experience making highest grade plows has taught us where the friction is heaviest, and we have placed our plow bottom to give the easiest penetration with the least draft.

Other features of the New Deere Gang are—Adjustable seat—Better steel used in construction throughout—Ease of management—Best proof wheel—Powerful high wheels—Easy raising—Easy run in dirt. Agents will tell you all about it if you write or call on us and see our Deere Line.

**JOHN DEERE IMPLEMENTS** have won the gold medal—the highest premium—at every World's Fair and National and International Exposition since 1890

Fred J. Cox, Pres., A. W. Bell, Sec'y. and Man.

### SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta and the Yukon territory, the North-west Territories and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,000 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated. In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be stated by the applicant himself. Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton. The person operating the mine shall furnish the Agent with every return accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not operated, such returns shall be furnished at least once a year. The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to our Agent or Sub-Agent of Dominion Lands. W. W. COOK, Deputy Minister of Interior N. B. — An authorized publication of this act and regulations will not be paid for. 30000

The saving between Ford cost and heavy car cost is "velvet" for the prudent buyer. He knows the Ford not only saves him dollars but serves him the best. It's a better car sold at a lower price and backed with Ford service and guarantee.

Six hundred dollars is the price of the Ford runabout the touring car is six fifty; the town car is nine hundred—Ford, Ont., complete with equipment. Get catalog and particulars from Herbert Smith, Wainwright.

### HERE'S GOOD NEWS FOR DYSPEPTICS

We have good news for every person in this town who has any form of stomach trouble. It is about a remedy for indigestion and dyspepsia that we have so much faith in as to offer it to you with our personal guarantee that if it does not relieve you and satisfy you in every way, we will refund the money you paid for it without question or argument of any kind. You risk nothing; either Resall Dyspepsia Tablets will relieve your stomach ailments or the money you paid for them will be handed back to you. There is no red tape about our guarantee. It means just what it says. Your word is enough. If Resall Dyspepsia Tablets don't satisfy you, the money is yours and we want you to have it.

Resall Dyspepsia Tablets soothe the inflamed stomach, check heartburn and distress, stimulate a healthy secretion of gastric juice, aid in rapid and comfortable digestion of the food, and help to quickly restore the stomach to a comfortable, easy-acting, healthy state. They also aid greatly in promoting regular bowel action. Resall Dyspepsia Tablets are sold only at the 7,000 Resall Stores, and in this town only by us. Three sizes, 25c, 50c and \$1.00.

— An Edmonton Field Developed by Edmonton Men —

The Grattan Oil Company, Limited, is a sound, reliable organization, directed wholly by local men of well known standing, which offers the public an opportunity in a thoroughly prospected proposition. It will pay you to enter into details and satisfy yourself of the genuineness of this undertaking

### LOCATION OF LEASES

Sections Thirty-two (32) and Thirty-three (33), Township Forty-four (44), Range Eight (8), West of the Fourth Meridian in the Province of Alberta;  
Section Thirteen (13), Township Forty-five (45), Range Eight (8), West of the Fourth Meridian in the Province of Alberta.  
The oil-bearing strata—Dakota and Devonian—are closely associated in this field. It is expected the Dakota will be reached under 1800 feet.

### VALUABLE LEASES SECURED

The project has been examined by our own geologist and selected after a thorough survey of other oil fields in Alberta. This field has been donated as a favourable one by the following eminent men of the Canadian Geological Survey, Dr. Dawson, Dr. Dowling and Mr. Tyrrell. See Reports 1882-3-4 and 1886.

By L. T. Meade

Ward, Lock & Co. Limited  
London, Melbourne and Toronto

(Continued)

"Now, my child, just sit down by the fire and tell me what has happened."

Barbara did not go near the fire. She did not even look at it. She brought you little, she said; and she held the little black box in both hands and then put it on the table close to the lawyer. "I found it yesterday," he continued. "It explains itself. It is full of letters, Mr. Sunnington, you will know that it means, and I would much more rather not speak about it. It is—it is one of the things that can only be repaired in one way."

"My dear child, what do you mean?" Barbara, you must let me speak to you as a father. You found a little, old, japanned, black box, in an out-of-the-corner of your father's study, and from your manner, my child, you seem to think that there is something dreadful in the fact of it. But we people of the world, of course I can not doubt of that. My dear little girl, there are secrets in all men's lives. What, for instance, Barbara, although short, is also long. A vast deal can be crowded into an apparently uneventful life. I have known a man in a life which numbers, say, sixty years, can influence the whole of the rest of it. But we people of the world, dear Barbara, take no notice of these sort of things. Your father, dear fellow, was a man of great men. You are surely not going to take up what may have occurred in his youth?"

"There is nothing," said Barbara. "He is dead, it is all right. I mean there is nothing. I mean the letters, and you will know what to do."

"Then take a comfortable seat by the fire and I will read two or three. Even one or two, read by my practiced eye, will give me a clue to the whole of the mystery. What, Barbara—what are you trying to say, my dear?" How dreadfully little and ill you look!

"I am not ill, indeed I am not, and I have nothing to say. I mean it is of no consequence. I mean that I need not say. The letters will tell you what to do. The money—the insurance money—my brother had—I don't want any of the money that my mother had—I don't want any of the money. The letters will explain. I have given you the little black box, and you will understand what to do. Good-bye—I know you are in a hurry; your clerk said so, and I have nothing more to say. You will act on the letters, won't you? You will be sure to do that—good-bye."

"Barbara! Miss Chidwell, you must not run away in that fashion. It is unreasonable. It is wrong. Your father and I were old friends, and Horace Sunnington was his cousin. I tell you what—you must sit with me to the end of the world, street and spend the night. My wife will be delighted to receive you, and so will my daughters. I want; read the letters quietly here and give your opinion afterwards. My dear child—what? You won't come?"

Barbara shook her head.

"Well, then at what hour may I expect you tomorrow? I can't do anything without consulting you. You understand that?"

"I think you can, when you have read the letters. Good-bye."

Barbara turned away. In a flash she had opened the door. Parkes was somewhat crippled with rheumatism. Beside little Barbara, he was as expressed in "nowhere." He followed her as far as his room door and heard her running downstairs. She ran very fast. He rang his bell with a sharp sound, and a clerk appeared.

"James, follow that young lady; go at once. If she has got into a cab, get into another and find out where she is staying. If she has not got into a cab, ask her to come back to me. Say, James, that I must see her. Don't delay a moment."

James, his face beaming with pleasure at this unexpected break in his day's routine of drudgery, flew down stairs after little Barbara. He came back presently.

"Well, where is she?" Parkes.

"In the street, sir."

"What is she doing?"

"She is standing at the door of a house, sir. I saw her go in."

"What is the name of the house?"

"The name of the house, sir, is 'The Talisman'."

"What is the name of the street?"

"The name of the street, sir, is 'The Talisman'."

"What is the name of the house?"

"The name of the house, sir, is 'The Talisman'."

"What is the name of the street?"

"The name of the street, sir, is 'The Talisman'."

"What is the name of the house?"

"The name of the house, sir, is 'The Talisman'."

# CHAPTER III

"Sunnington," said his partner, "here's a nice state of things!"

"Yes—what? You seem put out, Parkes."

"And I have good reason to be. Barbara Chance has been to see me."

"Of course," answered Sunnington. "I noticed the dear child as I was going through the clerk's room to my own. I was about to speak to her, but an important client had just arrived. I was obliged to wait."

"What's up with the child, Parkes?"

"I don't know," said Sunnington. "She brought it to me—she discovered it in her father's library. She wants to read the letters in it, and she is full of letters. The child has evidently fallen foul of some man's nest."

"What is the nest?"

"The nest, I mean, is a nest of letters. The child has evidently fallen foul of some man's nest."

"What is the nest?"

"The nest, I mean, is a nest of letters. The child has evidently fallen foul of some man's nest."

"The nest, I mean, is a nest of letters. The child has evidently fallen foul of some man's nest."

"What is the nest?"

"The nest, I mean, is a nest of letters. The child has evidently fallen foul of some man's nest."

# CHAPTER IX

"Sunnington," said his partner, "here's a nice state of things!"

"Yes—what? You seem put out, Parkes."

"And I have good reason to be. Barbara Chance has been to see me."

"Of course," answered Sunnington. "I noticed the dear child as I was going through the clerk's room to my own. I was about to speak to her, but an important client had just arrived. I was obliged to wait."

"What's up with the child, Parkes?"

**MEGA WATCHES**

You save much time and some inconvenience by making the OMEGA your first choice, because it is sure to be your final selection.

For Sale by  
J. Jewellers

**GOLD WATCH FREE**

A watch is mentioned in the Bible as a sign of wealth. It is a symbol of power and prestige. It is a watch that is worth the price of a fortune. It is a watch that is worth the price of a fortune.

**ARLINGTON**

WATERPROOF DOLLARS AND GUPES

Something better than linen and blue. It is a waterproof dollar and a waterproof gup. It is a waterproof dollar and a waterproof gup.

THE ARLINGTON COMPANY OF CANADA, 58 Fraser Avenue, Toronto, Ontario.

**HERBALIST**

Registered Time-Worn Cure, price five dollars, forwarded by registered post. Remit by post office order to O. P. Alver, 601 Sherbourne Street, Toronto.

**Encouraging Wool Growing**

Wool growing is a neglected Canadian industry. The government of Canada has found it necessary to regulate the grading and selling of wool. The big wool countries of the world have done for the wool growers what the Canadian government has done for the wheat growers, and the day is coming when regulations of this kind will be worked out here, says the "Canadian Courier".

**The Dominion Department of Agriculture has issued a circular stating that it is prepared to offer practical assistance this year to associations of wool growers. Such an association must contain at least one sheep to supply one carload of wool. Where an association of this kind exists, the department is prepared to supply the services of expert wool classifiers who will perform the necessary grading. There will also be a central bureau at Ottawa for the distribution of current information respecting domestic and foreign markets. This is a move in the right direction, and should pave the way for the placing of the wool growing industry on a sound financial and scientific basis.**

**Tearing Cards**

At the Hatterly club in Paris not long ago a man achieved a record by tearing a pack of playing cards in one pull—time, 2 minutes, 32 seconds. The event in this card-tearing contest was:

Tearing the greatest possible number of cards tied together top and bottom—time allowance, three minutes; tearing a pack of eighty cards in the quickest possible time; tearing the greatest possible number of cards in four.

**Cripple Beggar (to old lady)—** Please ma'am: I was not always like this.

**Old Lady:** No; time brings changes. Last week you had the crust under the other arm.

**Host (to visitor):** Ah, what a pity you did not come a minute sooner; my wife has only just cleared away the coffee.

**Little Willie:** Yes, and she nearly broke a cup in her hurry.

**Annotated Poetry**

"Man wants but little here below," Commentators explain. Comprise bullion in the bank. A free hold in Park Lane. With creature comforts of a king To succor and sustain.

**Wife:** And so you got your life insured for my benefit. How lovely!

**Husband:** Yes, my dear, but just remember that if you drive me to suicide you won't get a cent.

**Mrs. Goode:** Are you anxious to earn a good dinner, my poor man?

**Haggard Roger:** Not half so anxious as I am to eat one, lady.—Boston Transcript.

**First Suburbanite:** Do you enjoy going into Newcombe's wonderful garden?

**Second Suburbanite:** No; everything in it is so exasperatingly perfect that I can't have the fun of saying: "If you had followed my advice it would have been better."—Judge.

**Rye Grass**

Rye grass is believed to be the oldest grass specially raised for forage. Having been thus cultivated in England more than two centuries ago.

**Answered**

She—And how did you feel when the captain said the ship would go down in five minutes?

He—I felt for a life preserver.

**Believe in Your Boy**

There is a boy problem in your heart if you are looking for a solution. It is to be found in a little sentence of four words: Believe in him. It is a day in a boy's life when he hears a parent say: "I have no confidence in you." And yet, as the boy grows, he finds that his parents have no confidence in him. A boy's daily chores include looking after the household, milking the cow and caring for the horses. On several occasions the faucet that supplies the tank with drinking water was found open and the backyard flooded. Of course, the boy was charged with carelessness. He stoutly denied having left the faucet open, but he was threatened with punishment next time such trouble occurred, and he missed it only by chance. The cook happened to look out of the kitchen window just in time to see the old boy turn the faucet with his nose. He had probably learned the trick by accident, and was smart enough to draw his drinking water fresh.

Many a boy has been punished for something he did not do. He was permitted, so to speak, to judge the boy. The normal boy is quick to respond to a parent's criticism, and is hardened by unjust judgments of those in authority. More than one boy has been punished for something he did not do, and he was punished in spite of the system of discipline to which he was subjected. The horse.—The Mother's Magazine.

**Wise Mexican Mule**

"The mule in Mexico is a wise animal," says a man who has studied the animal in that country. "Mexican mules will do just so much work and not a bit more. The riding mule, for instance, is fully aware of the distance down to a road. He is supposed to be required to traverse in the progress of one traveling day, and all the sharp sticks or goads or whips that he won't get him to do a bit more than what he knows to be the correct distance. The Mexican mule has a peculiar saying in connection with this characteristic of the Mexican mule. You ask a Mexican how far it is to a place, and he will tell you a mileback to such and such a point.

"Two days' journey if you are not rushed, but three days if you are in a hurry," the Mexican will reply.

"His meaning is that if you don't ask more of your mule than you should, it will take you two days. But if you attempt to drive the brute the soldier on you, and in consequence the journey will take you three days."

**Rapid Stars**

Even astronomers are expressing astonishment at a speed record recently discovered among the stars. The Andromeda nebula has been found to be moving in the general direction of the earth at the rate of about 16,000,000 miles a day, or nearly 200 miles a second. This is vastly faster than the motion of the stars round the sun or of the sun in space. It will be some time before the nebula approaches very close to the earth, however. Observations of the nebula by telescope and photographs do not show the slightest measurable trace of movement toward the earth, which indicates that it is so far away that travelling 16,000,000 miles a day is too slow to be apparent. The discovery that it is coming at this rate was made by a study of the spectrum of its light.—Saturday Evening Post.

**Says Education Is Not Progressive**

In delivering the report on rural education in the province of Quebec at a meeting of the Presbyterian synod of Montreal and Ottawa, Rev. Dr. Love, moderator, Quebec city, said that many Protestant children in outlying districts were growing up without much education while a number reached adult age without any education at all. Protestants in the rural districts had decreased while Roman Catholics had increased.

**Complimenting the Judge**

In "Stories From the Bench and Bar," Mr. Arthur H. Englebach recalls the following story of Sir George Jessel, master of the rolls: One day he was having a point pressed upon him by a barrister named Oswald, who cited in support of his point from a reported judgment of the master of the rolls.

"Mr. Oswald," interposed Jessel, "I could not have been such a fool as to have said that."

"Oh, yes, my lord," retorted Oswald, "you were, my lord, you were."

"Was your husband cool when you told him there was a burglar in the house?" asked Mrs. Hammer.

"Cool," replied Mrs. Gubb. "I should say he was cool. Why, his teeth chattered."—Cincinnati Enquirer.

"What did you tell your wife when you got home from the club last night?"

"I told her she was the sweetest woman in the world."—Boston Transcript.

"And what do you know about Moses?"

"Please, teacher, it's my first Sunday here and I don't know anybody."—Punch.

"Gone back to smoking yet?"

"None."

"You must have considerable will power."

"Well, what I lack my wife supplies."—Levellille Courier-Journal.

**During the French Elections**

"Yes, I lunched with the Conservative candidate, had dinner with the Radical, and coffee and liquor with the Socialist."

"And then how did you vote?"

"My dear sir, how can you ask? Of course the most simple regard for decency kept me from the polls altogether."—Illustration.

"It seems strange that he could plunder a great corporation like that for years without being found out."

"Well, you see, the corporation was pretty busy itself."—Chicago Journal.

**Mrs. Goode:** Are you anxious to earn a good dinner, my poor man?

**Haggard Roger:** Not half so anxious as I am to eat one, lady.—Boston Transcript.

**Crabshaw:** I thought they were violently opposed to the motor car.

**Mrs. Crabshaw:** Oh, but they were for they could afford one.—Judge.

**The Difficult**

"Hoots, moan, what all's ye? Can ye no stand up?"

"Oh, aye—A can stand up, but I can't stop up."—London Opinion.

**Babies Fear the Force of Gravity**

The first experiment which a baby makes is concerned with the force of gravity. It is born with an instinctive or ancestral dread of the unrestrained action of that force upon its own body, and it is not to be able to cling with tenacity to a stick or branch of a tree. Later on it takes pleasure in dropping miscellaneous objects to see them fall, perhaps to see if they all fall alike.

And a very remarkable fact it is which is thus observed: The most familiar of all material facts and one of the least understood—last understood, that is, of all the simple physical facts which must surely be well within the limits of human comprehension. For it is a philosopher is asked why all bodies tend to move toward the earth and why they all fall with steady, equal acceleration unless retarded or checked somehow he has to reply that he does not know.—Sir Oliver Lodge in Harper's Magazine.

**Forget Mother**

Johnny—You're the meanest, hateful, spiteful thing I know.

Tommy—And you're the crabbed, ugly-est.

Father—Boys, boys, you forget that your mother is in the room.

**Grouch**

Student—How do you pronounce it, professor, maxie or macechie?

Old Dryasdust—Neither, sir. I pronounce it rank foolishness and waste of time.

"Now, boy, take these right to my house, and be careful and don't break them."

"Blankets,"—State Journal.

**A Bit of Sarcasm**

"The late Dr. Morgan Dix," said a clergyman of New York, "had a droll way of lightning grave subjects with little humorous asides. Once I heard him addressing a graduating class at a medical school. He began in this way:

"Physiologists tell us, gentlemen, that the older a man grows the smaller his brain becomes. This explains why the old man knows nothing and the young one, everything."

"Say, old man, you're looking a hundred per cent. better than you did a year ago."

"I was worrying about my debts then."

"All paid now, eh?"

"No; but they have grown so that I know there is no use trying to pay them. I tell you it's a great load off my mind."

"I hear there is going to be a congressional inquiry into Backmay's business."

"I had no idea he was so prosperous as that."—Life.

"I understand that she does a good deal of vocal work."

"Yes. Her singing is labored."—Judge.

**President Suspended**

Writing of the ancient mosque of Ibn-Tulun, Cairo, John A. Todd in "The Banks of the Nile," shows how accidental was the design of its old looking tower. Ahmed Ibn-Tulun was one day holding a council of state when he allowed his attention to wander and sat idly twiddling a piece of paper between his fingers, shaping it into a wheel. Suddenly he realized that the councilors were waiting for his decision to a question. But what question?

At his wit's end to avoid confession of such discourtesy, he continued in silence to twiddle the whirl of paper. Suddenly he spoke: "Call my architect," for the plans of his new mosque were under consideration. The coat appeared in fear and trembling, no doubt. You see this paper. Make me a tower for my mosque like that." The architect was saved, and the shape of the tower, with its corkscrew outside stair, is there to this day to confirm the story.

**Miller's Worm Powder** does not need the after-bite of enema or any purgative to complete their thoroughness, because they are thorough in themselves. One dose of them, and they will be found reliable by all children, will end the worm trouble by making the stomach and bowels unattractive to the parasites. And not only this, but the powder will be certain to exert most beneficial influences in the digestive organs.

**First Sportsman** (on the way home after dinner): "Hi! Look out where you're going!"

**Second Sportsman**—Look out yourself! You're driving, aren't you?"

**First Sportsman**—No, I thought you were.—Exchange.

"Your dog has bitten chunks out of my leg twice now," urged the girl.

"I am in hope that he will like you."

"How many samples does he need before he makes up his mind?"—Ohio State Journal.

**Coal Dealer**—Why don't you wheel the barrow along more quickly, Pat? It is not a very hard job; there's an inclined plane to relieve you.

**Pat**—Aye, master, the plane may be inclined, but hang me if I ain't Pearson's Weekly.

**He**—People are saying you married me for my money!

**He**—Well, I had to give them some reason.—Bylander.

**The power of necessity** is irresistible.—Aes-Byrus.

**Flying Fish**

Interesting are the habits of the flying fish, that queer denizen of the sea found principally in the region of the trade winds. "Does it rise from the sea like a bird?" you ask. No, it shoots out of the waves like an arrow and with outspreading wings sails on the wind in graceful curves, rising sometimes, one might say, to the height of fifteen feet, but not often so high, and then, lowering, it again touches the crest of a wave and renews its flight. This operation may be repeated till it covers a distance, say, of 500 yards in the case of the stoutest on the wing, though very often it is not half the distance is covered. At once the fish, which has been sailing through the trade winds will often be visited on dark nights by flying fish, which hit the sails or rigging and fall on deck, where, of course, they soon give up life.—St. Nicholas.

**Cairo's Corkerew Tower**

Writing of the ancient mosque of Ibn-Tulun, Cairo, John A. Todd in "The Banks of the Nile," shows how accidental was the design of its old looking tower. Ahmed Ibn-Tulun was one day holding a council of state when he allowed his attention to wander and sat idly twiddling a piece of paper between his fingers, shaping it into a wheel. Suddenly he realized that the councilors were waiting for his decision to a question. But what question?

**E. W. GILLET COMPANY LIMITED**

WINNIPEG, TORONTO, ONT. MONTREAL.

**Four Leafed Clover**

Since four leafed clover is said to be lucky it might be well to know how it happens that while most clover has only three leaves, one is found now and then with four.

According to J. Perret, who discusses the question in the Archives des Sciences Physiques et Naturelles, the clover with more than three leaves are due to two causes, one hereditary, the other nutritive. After a moist season clover plants with four or even five, six or seven leaves are relatively common and plants with only two leaves are also seen at such times. These are very rare.

But some plants are abnormal by heredity and reproduce themselves with the same characteristics in successive years when their environment remains the same external influences merely modifying the size of the leaves.

**Did Not Find It Rather Cold**

The thieves were making off with your clothes."

"Oh, no. They kept me well covered with their revolvers."—Pittsburgh Courier.

**Boarded by a Pirate**

Miss Gush—Oh, captain, were you ever boarded by a pirate?

Captain Storms—Yes, he charged me \$5 a day for a bedroom on the fourth floor.—Christian Register.

**Beedy Boarder**—How! You—how—may not believe it don't you know, Polly but I was born with a—how—silver spoon in my mouth.

Polly—Well, fancy! An' me an' mother thought you spoke like that on purpose!

**A Matter of Selection**

"Does it give you a terrible feeling when you run over a man?" they asked him.

"Well, if he's a large man," replied the automobile driver, "it does give one a pretty rough job."

**Criminals at Large**

Gibbs (visiting)—What sort of neighbors have you, here?

Dibbs—A bad lot. There's a blacksmith who's engaged in forging a carpenter who's done some counterfeiting and a couple of fellows next door who sell Irish and—well for a living.

**The Gusher**

"What is a gusher in an oil field?"

"The man who writes the prospectus," replied he who had been stung by Birmingham Age-Herald.

**It Ever Gets Into Action**

It ever gets into action strangers will wonder how the Pacific fleet ever got its name.—St. Louis Globe-Democrat.

**Jack—** I was just admiring Mabel's hair. How pretty it is!

Mabel's Rival—Oh, she has some prettier than that!—New York Globe.

**SUCH LETTERS AS THIS EXPLAIN WHY Everybody Uses Dr. Chase's Nerve Food as a Spring Tonic**

**We have on file thousands of letters telling of similar cures by Dr. Chase's Nerve Food.**

**Skeptics are invited to write to Mrs. Scarbo for confirmation of her cure.**

**Mrs. Jules Scarbo, Moulintree, Stormont Co., Ont., writes:**

"I think it is my duty to write and let you know the great benefit I received from taking Dr. Chase's Nerve Food. Early last fall I became greatly run down, could scarcely eat anything and could not sleep at night. The least sound would make me start and I was so nervous I could hardly bear to have anyone talk to me. I tried many medicines but none helped me and I was in this extremely nervous condition for five months.

"I read in the almanac about Dr. Chase's Nerve Food and bought 3 boxes from Mr. Armstrong, druggist at Mille Roches. Before completing the first box I felt the benefit and now believe the cure to be thorough and complete. I am feeling fine and eat and sleep well, thanks to the wonderful good, accomplished by Dr. Chase's Nerve Food. I wish everybody troubled as I was knew of this grand medicine, which is so quick in action and so permanent in results. It will always have my praise.

You can avoid the feelings of fatigue and depression which make spring so dreaded by very many who are not in robust health. Sleeplessness, irritability, indigestion and headaches soon disappear when you increase the vitality of the mind and body by using Dr. Chase's Nerve Food. 50 cents a box, 6 for \$2.50, all dealers or Edmanston, Bates & Co., Limited, Toronto. Write for free booklet on the "Nerves."

**Dr. Chase's Nerve Food is the greatest of spring restoratives, because it actually forms new, red corpuscles in the blood.**

## BODY OF W.B. CRAWFORD FOUND AT BOTTOM OF OLD WELL

Continued from front page

on that night went to bed at 8:30 and the following day called in Dr. Little and Dr. McDonald. He remained in bed until the following Wednesday when he went to Edmonton. He further stated that he was on good terms with Mr. Crawford and at the time of his disappearance was negotiating with him for loans on certain houses which he was building.

After hearing the evidence of others, including A. C. Armstrong, brother-in-law of the deceased, and R. D. Henry, a son-in-law, the jury through Foreman John Wood brought in the following verdict: "That W. B. Crawford met his death from a blow or blows struck by a dull instrument in the hands of an unknown person or persons."

### FUNERAL LARGELY ATTENDED

The funeral of the murdered man was held on Monday at 3 p.m. Every store and place of business in town was closed, in respect to one of Wainwright's leading citizens, who had resided here for the past five years. The funeral started from Small's undertaking parlors and proceeded to St. Thomas' Church where a service was preached by Rev. T. F. Marshall. The cortege then proceeded to the rural cemetery and the last sad rites at the grave were performed by Rev. Mr. Marshall. Hundreds attended the funeral and the casket was covered with floral tributes from friends and relatives of the deceased. The pall bearers were S. E. James, H. C. King, Thos. Crampton, A. Love, G. A. Smith and Geo. Boyd, the mourners being A. C. Armstrong, R. D. Henry and T. S. Harrison of Calgary.

Rev. Dr. Riddell, President of Alberta College, Edmonton, will preach both morning and evening at Grace Methodist Church on Sunday next. In the afternoon he will preach at Greenhills in the school.

Mrs. Potter will put on a new turn in the Empire Concert on Friday night. "A Little Pink Pettit from Peter", taken from the Dutch Opera, Miss Hook of Holland, is the title of the song in which she will appear.

Walter Woodhus, who first came to Wainwright to do the baking at the Wainwright Bakery, left yesterday for Viking, where he accepted a position with the Viking Bakery.

## SECOND ANNUAL PICNIC AT GILT EDGE WAS SUCCESSFUL

The second annual picnic held at Gilt Edge on Thursday last was a most enjoyable affair, and a large number from Wainwright and the adjoining districts was present. The program was much after the nature of last year's with the exception of a ball game between Gilt Edge and Wainwright in which the Gilt Edge nine chalked up a score of 17-0 against the local team in one innings. There was considerable controversy between the pitchers for the Wainwright team, Arnold Plaxton and Rev. S. A. Wallace being contestants for the honor of standing on the mound.

Geo. Babb's horses won both racing events in the pony and free-for-all. A dance was held in the evening which was largely attended, probably due to the fact that the downpour of rain prevented people returning to their homes. Many from town could not get home until the next morning. All who attended expressed themselves as having spent an enjoyable day and that the Gilt Edge people had lived up to their reputation of being an hospitable people in every sense of the term.

BORN—To Mr. and Mrs. D. Rattray on Saturday, June 20th, a son.

G. L. Hudson, M.P.P., was a business visitor to Edmonton this week, returning here this afternoon.

The Imperial Oil Co. will hold their demonstration of the New Perfection Coal Oil Range on Monday, June 26th, at the store of W. E. Washburn. Tea and light refreshments will be served, invitations to which have been issued.

Mrs. Livingstone and her mother, Mrs. Peter McDonald, accompanied by Miss Margaret Livingstone, left here on Monday last for Douglas, Ont., where they will visit for the summer months.

E. C. Hass, manager of the Imperial Lumber Co. branch at Chauvin, was a visitor in town yesterday, having been summoned as a witness on a case that was to have been heard in the district court here today before Judge Lees.

Before Judge Lees in the sitting of the District Court held here this morning, George Williams was sentenced to six months for attempting to break into the Merchants' Bank on the night of Friday, May 22nd.

A new building is being erected on Main St. by Herb. Crampton and it is understood that Constable Wilson will move into the new premises when they are completed. Frank Bell is erecting the building which is nearing completion.
